We are submitting the referenced forms for your review and approval. These are new forms and will not replace any existing forms.

Identical forms are being submitted for approval under Genworth Life Insurance Company for use with individual single premium immediate annuity and also under Genworth Life and Annuity Insurance Company for individual and group single premium immediate annuities. As applicable.

The endorsements will be used with the following listed forms, both approved on 12/7/07

GNW6217 02/08 and GNW6218 02/08

GMP7172 12/07, Group Single Premium Immediate Annuity Contract

GNW6219 02/08 and GNW6220 02/08

GP7172 12/07, Group Single Premium Immediate Annuity Certificate

We may also offer these endorsements with applicable future contracts filed for approval with your Department.

The endorsements provide for an increase in income payments at a specific time (or times) if the established benchmark rate increases by a set percentage(s). The income payment increase, specific time, and set percentage(s) are all shown on the Contract's data pages.

First, a benchmark rate is established the day prior to the Contract Date.

Thereafter, the benchmark rate is measured at a specific time (or times). It may be measured one time (P5396 02/08 and P5398 02/08) on the 15th day of the month preceding the Contract Date's 3rd anniversary, or two times (P5397 02/08) and P5399 02/08) on the 15th day of the month preceding the Contract Date's 3rd and 6th anniversary.

At the specific time the benchmark is measured:

<i>Product Name:</i>	<i>Income Booster - GLIC group</i>		
<i>Project Name/Number:</i>	<i>Income Booster - GLIC group/GNW6217 02/08</i>		

If the benchmark rate increases by the set percentage (or percentages), the income payments will increase by the factor shown on the contract's data page and will apply to all remaining income payments.

If the benchmark rate does not increase by the set percentage (or percentages), the income payments will remain at the level established on the Contract Date.

Once an income payment increase occurs, no further income payment increases are available.

The benchmark rate will be The Federal Reserve Board's Ten-Year Constant Maturity Treasury Index.

The underlying SPIA product will be marketed by licensed agents and brokers to individuals through traditional distribution systems as well as to customers of financial institutions. There is no special market intended. Issue ages for the endorsement will be 59.5 through 85.
